

As an Indiana citizen, I have been a huge benefactor of the Indiana No Call list. The perfunctory task of answering a litany of phone calls from telemarketers has been eliminated from life thanks to the Indiana No Call list. Proceeding 02-278 is an egregious infringement on our rights as Indiana citizens. It is an attempt to remove what little diminutive privacy we have left in our lives. Please do not allow the promulgation of this proceeding. If we still purport to be a democratic nation, a law promoted by the few should not take precedence over a law approved by the majority.
